

WISCONSIN SAFETY CONSULTATION PROGRAM (WiSCon)

Are you confident that your programs meet the latest OSHA standards?
Would you like help in:

- Managing your company's safety program?
- Recognizing and correcting safety hazards?
- Staying current on new standards?

If you would like help, the Wisconsin Safety Consultation Program (**WiSCon**) is for you!

A professional staff of consultants with knowledge of current safety management practices, OSHA standards, and their interpretation is available to assist you in developing, maintaining, and improving your safety program.

There is no direct cost for **WiSCon**'s service. Consultations are completely separate from the OSHA enforcement function. Our consultants do not issued citations or impose penalties. You need only commit to the timely correction of any serious deficiencies discovered during the consultation visit.
